

# The New Hemorrhoid Cure That Works

**Y**our rectal area, there are a large amount of blood vessels, when these enlarge and become inflamed, **hemorrhoids** develop. The more common symptoms include discomfort, itching and also burning. In more severe cases, anal bleeding can occur. This is as a result of the arteries filled under strain. Treatments have a tendency to focus on alleviating these uncomfortable symptoms. However, as the soothing effect comes to an end, or you stop using the treatment, **hemorrhoids** have a nasty ability to return.

People are in the habit of spending hundreds of dollars on hemorrhoid treatments, yet these remedies only alleviate symptoms for a short period or for the duration of application of the treatment. Frustration begins, as hemorrhoids go back again and again, making basic daily functions difficult. People then revert to be able to adjusting their eating habits with the addition of extra fibre or taking fibre supplements. Increasing one's daily intake of water is also a good action many hemorrhoid sufferers undertake. Although these lifestyle changes are healthy and can have a positive effect, most of the times they are too late, once hemorrhoids have already developed.
